

COIL CLEANERS

Pro-Red Plus Non-Acid Coil Cleaner and Brightener

Pro-Red Plus is a concentrated, fast-acting product that foams and lifts away stubborn deposits from air-cooled condensers and coils. Pro-Red Plus Non-Acid Coil Cleaner & Brightener is easy to use. It removes tarnish and corrosion deposits, and leaves a bright clean shine on aluminum and copper coils.

Pro-Red Plus Non-Acid Coil Cleaner & Brightener cleans by chemical action. Its brightening properties are as effective as conventional acid coil cleaners, but Pro-Red Plus does not contain extremely toxic hydrofluoric acid. The vigorous foaming action eliminates the need for prolonged soaking, steam cleaning or scrubbing coils. Pro-Red Plus has a non-acid formula that does not emit corrosive fumes, and will not rust ferrous metals.
