Product Spin and Click Programmable Digital Thermostat

Application Home HVAC system control

Purpose The Spin and Click Digital Thermostat makes programming your thermostat easier than ever, increasing energy efficiency and reducing your HVAC operating cost.

Advantages The Spin and Click Digital Thermostat replaces traditional hard-to-program thermostats with a unique quick scroll wheel for easy programmability, which can be seen on the multi-color backlit LCD Screen. It is also US DOE Energy Star rated, which for the user means reduced operating costs of the HVAC system by programmably altering temperature set point based on room occupancy patterns. Spin and Click Thermostat can be easily installed in place of a traditional mercury thermostat.

Display Options LCD screen with multi-color backlighting shows temperature/temperature set-point, clock/date, operation modes. Intuitive user interface allows for fine adjustments via the scroll wheel.

Automatic Features Automatic temperature control and fan modes.

Fan Modes On, automatic, and intermittent (10 minutes every hour)

Programmability Fan modes programmable through a 7 day regimen with 4 events per day. Fan mode programmable per event. Programs can be copied day to day.

Memory Battery powered memory for settings

Security Variable security lock
