## Product

Flow Plus Inline Cleaner™

## Features

- Easy To Install
- Easy To Service
- Clear Design Dispenser
- Time Released Cartridge
- Safe

## Benefits

- Installs inline with the condensate drain to treat water
- Snap on lid for easy access to replace cartridge and clean out the line with a Gallo Gun
- The clear dispenser makes it easy to see when it is time to refill.
- Cartridge dispenses treatment over time when exposed to condensate and will last up to 6 months.
- Non-corrosive, non-hazardous, biodegradable and environmentally safe.

## Application

The Flow-Plus Inline Cleaner maintains condensate flow and prevents drain line build-ups and clogs. As condensate passes through the Inline Cleaner, the cartridge releases Flow-Plus cleaner into the drain line and condensate pump (if applicable) to prevent build-up and keep the drain line clear. The cartridge lasts up to 6 months and is easy and fast to replace.
