

# LineSeal™

## Refrigerant Line Sealant

LineSeal™ is a patented, contaminate free sealing solution for refrigerant systems. Seals leaks and provides years of protection against future leaks.

LineSeal™ is a self contained vacuum packed canister of sealant that is released into a refrigerant system. The sealant travels with the oil and refrigerant throughout the system. Where the system leaks, the refrigerant escapes and lowers the surrounding air temperature down to the dew point where micro droplets of water are deposited around the perimeter of the leak area. The sealant reacts with the droplets of water to harden into a protective barrier to keep refrigerant from escaping.

Unlike many sealant products, LineSeal™ uses no harmful hydrocarbon (propane or butane) chemicals, assuring that the system remains safe and contaminate free.

- Stops existing and future leaks
- Contains no propane or butane
- Patented Technology
- Compatible with all oils and refrigerants

Free in branch merchandiser (MKT-POP-LS) with purchase of 4 cases of either SKU.

### SKU List

Catalog No.	Description	UOM	Order Multiple	List Price
LS-1	Line Seal™, 1 ounce can, up to 1.5 ton (18k BTU) (5 kW)	EA	12	\$121.40
LS-2	Line Seal™, 3 ounce can, 1.5 to 5 ton (18-60k BTU) (5-17 kW)	EA	12	\$153.80

## Complementary Items

Catalog No.	Description	UOM	Order Multiple	List Price
COOLWELD-32	Cool Weld spray on heat barrier, 1 quart	EA	12	\$17.60
DAD083S	Liquid line drier, 3/8" sweat connection, 8 cubic inch capacity	EA	1	\$37.60
DAD163S	Liquid line drier, 3/8" sweat connection, 16 cubic inch capacity	EA	1	\$43.44
PRO-BUBBLE-32	Pro Bubble leak detector, 1 quart trigger sprayer	EA	12	\$15.44

## Available Supporting Collateral:

Catalog No.	Description	UOM	Order Multiple
LIT-FLY-LS	Contractor Brochure for LineSeal Refrigerant Line Sealant, pack of 25	PK	1
MKT-POP-LS	Merchandising Product Display for LineSeal Refrigerant Line Sealant, flat packed	EA	1
